Residents Who Long Believed Themselves Citizens Have Been Breaking Law THREE HUNDRED OF THEM HELD AS ALIEN ENEMIES

Rights Granted By Republic and Royal Constitutions Declared Invalid

Fifteen hundred residents of the Verritory who for years have been ex excising all rights as citizens by vot ug at elections, holding public posi tions and in other ways are, in fact law breakers, and of this fifteen hen dred some three hundred not only have been breaking citizenship Jaws, but wake up at this late day to learn that they are alien enemies subject to all of the restrictions and regulations de si ned to control actions of foes of

the United States. Briefly, citizenship that was grant ed to aliens, born under any or the royal constitutions or by certificates is sued nuder the Republican form of gov erument have to value today because rights granted by these constitu tions and by the republic conflict di-

Technical Violators It is accepted by the authorities that virtually all of those who have been violating the law are offenders only technically, as they believed them to be citizens of the United States and only learn now through the ruling of the United States district attorney that they have been exercis ! ing rights which they do not possess.

Mone of the grants of citizenship either under the monarchial constitu tions of Hawaii or under the repub lienn government required those whom they were granted to foreswear allegiance to the countries in which they were born. It is this feature that brings the grants in question di rectly into conflict with the require monts of United States law.

The situation hits all children of alieus born under the Hawalian mon archy, who did not elect citizenship on majority and literally hundreds who they came. had no vestige of doubt that they were American citizens now learn that they of German or Austrian birth are held to be alien enemies and as such are to be required to be re to be required to so register them selves with the authorities. Is Thunderbolt

Something like consternation was coused to many German residents of Hawaii when they read yesterday of District Astronomy is 61 Hober a ruling that the granting of special rights of citizenship under the Republic of Ha wall did not make the holder an American citizen, unless he was after wards naturalized, as required by the It and government constitution.

Two sell known pesidents who for twenty years had believed they were American citizens called on the fedattorney yesterday when they learned of the ruling which placed them in the alien enemy class. were Charles Bosse, mill engineer of the Oahn Sugar Company, and Gustave Riedel, dairyman, who lives at 1121 Gulick Avenue.

Bosse said he had thought for years that he was an American citizen as he was the possessor of one of the Republic's conditional citizenship pa pers, as did also Riedel for the same reason. Hosse said he had never voted because not interested in politics, but Riedel has exercised his supposed right of suffrage, ever since aunexation. Both Register

Both of the Germans who called or federal authorities yesterday did so in order to be registered as alien ene mies, as will be required of all Ger mans who had conditional citizenship under the Republic, but who never completed their citizenship by natural ization.

peculiar development of the citi zenship muddle, because of the misun derstanding of the citizenship laws of the Republic, and how affected by the annexation of the Islands by United States, is the assertion that the some of all who were aliens under the mon steby are also aliens and not Amer ican citizens as they have erroneously presumed. Sons of such aliens wh came here as children and all some born previous to the overthrow of the monarchy are held to be aliens, ur less they have since become natural

Incomplete records now in the handof the fe leval officials show that there were probably fully 1500 residents of the Islands before annexation, who had all the rights of citizenship, without renouncing their allegiance to the countries of their birth, acquired through the securing of special rights of citi

zenship or letters of denization. About 300 of the holders of the spe cial rights of citizenship or letters of denication were of German and Aus trian hirth, as has now been establish ed by the federal authorities, who have a list of such residents or former res of the Islands compiled.

To Check Lists Until this list is chucked with th cuturalization records of the Island "ill be unknown how many of these former German and Austrian resident are still living either here or some other place under the American flag who should be listed as enemy alionand required to comply with all the fartons governing the actions

19 . I . a of the list of those who ar at news, so that all such Germans or ous trouble may be avoided. Chamber Sustrians who did not complete their lain's Colic and Diarrhoea Remedy can citizenship by naturalization may be always be depended upon. to having their finger prints taken the same as the wives of alien enemy sea says, furthermore, that he does not be-

alien enemies the women will have ording to his paid advertisement, threatens to yank into the courts if envholy attempts to make use of it for the purpose for which it was intended, that of suppressing disloyalty.

In his naive nivertisement the Govroor says that when the secretary of he interior failed to reply to his ablegram inquiring whether or not the ederal government approved of local egislation restricting allen enemies, he at once conferred with the United tates district attorney.

It was concluded while probably unconstitutional . . . best be approv-Islands who have sons, brothers, and the national government or the determinution of the courts."

That's what the Governor says in an

advertisement for which he is spandng the people's money. But Mr. Hu-ber says something entirely different. the denies he ever told the Governor he believed Act 19 to be unconstitutional, He charitably credits the Governor's tatement, made at advertising ratel, o the Governor's mental confusion, The Governor, it seems, has got himelf all tangled up and obfuscated. He has confused the bill he did sign with ne which was introduced but not passof by the legislature and which he fidn't sign. His latentions, apparentv, were perfectly good. He he was signing an unconstitutional Bill,

out he really wasn't. District Attorney Huber says he cointed out to the Governor that the eroposed interament camp act would be neonstitutional. But he didn't say nything about the Disloyalty Act. Committee Not Feeled

Making further references to the adertisement published by the Governor notifying the public that the Disloyalty all passed at the special session might e held unconstitutional, Senator A. L. astle expressed the view that the atorney general's message on the subect, published as a part of the adverisement, did not refer to the disloyaly act, but to other war measures that and been introduced carifer in the mes-

ion and tabled. Sevator Castle, who is chairman of he judiciary committee of the sentite, aid the committee was aware that the lovernor had asked Washington for adme on war measures that were introseed, but believed that the Governr's cable referred to other bills than he disloyalty bill. This, he said, is ot aimed at alier enemies, but at Ger oan Americans and all others who night be guilty of disloyal utterances

He pointed out that the act itself efinitely states that if any of its secions should be held un opstitutional, his shall not affect other provisions of he measure.

RICE DEALERS CALLED ON CARPET BY CHILD

Caught Charging Too Much, He Says

Food Administrator Child discover d vesterday morning, he said, that he Japanese Rice Mill has been chargg an amount for rice in excess of hat set by the food commission. As his was the company's first offense, t was ordered to refund \$220 to seven ustomers who had been overcharged and also fined five dollars for each violation of the food administration - These times will be donnted to

the Red Cross.

A careful check of all sales reports of wholesalers in the city is being made and warnings have been i sued in several instances, where profiteering has been carried on, that these practises must cease or prosecutious will follow.

Child reports that one large wholetale and retail house in Honolula has been making a profit of two dollars and five cents on a barrel of flour where the rulings of the food com mission only allow one dollar profit. Administrator Child said that he was ot allowed to make public the name of this profiteer notes the warning unit unbesided. The firm has been asked to show cause why it should not be penalized for this ofense at a hearing which will be held in the near future. Another firm has been found quilty of willing during month of March 8800 pounds of wheat flour and only 2538 pounds of substitute. This concern will also be call ed on the carpet shortly
